Mirabilia, St. Anne's 150th anniversary celebration of the arts, presents the NetherMind Artists' Collective for an exhibition of new site-related sculptural and installation works. For *Mirabilia* NetherMind has been invited to respond to the architecture and life of this distinctive and historic church.

The artists of NetherMind - Tom Dean, John Dickson, Catherine Heard, Greg Hefford, Mary Catherine Newcomb, Reinhard Reitzenstein, Lyla Rye, and Max Streicher - share an affinity for unexpected materials and unusual locations. The works made for the exhibition explore a range of experiential, physical and sensual sculptural responses to sites throughout the church

NetherMind formed in the early 1990s and made its mark on the Toronto art scene with a series of four exhibitions between 1991 and 1995 in abandoned industrial spaces.
